Guinea Pigs at School!

We have been given 3 guinea pigs. They live in a cage outside Class 1 and they go on the grass in a run while we are at school. We hold them sometimes but we have to have a towel on our laps and be careful not to hurt them. They are still a bit shy. Their names are Sparkle, Crumble and Cookie and they are all girls.

Clay Workshop

Mrs Houghton came to help us to make the bugs. We used clay. We had to make a leaf for our bugs to sit on. We used forks and knives to make patterns like leaves. We had to roll the clay into sausage shapes to make our bugs. We had to put gluey water on the bottom of the bugs to make them stick on the leaves. We used little sticks to write our names underneath. We had to leave the clay to dry before we could paint it.

Tring Natural History Museum

We went to Tring Museum for our trip. It has lots of animals to see that are preserved. The animals are all dead and some are extinct like the dodo because the people ate them all. We had our packed lunch and the walrus had big long teeth. We learned about the glis glis came to England.

Animals from other lands

We read Dear Zoo and made pages for our own book. We painted lion faces on paper plates. We made tiger stripes by tearing paper. We made leopard spots using sponges and paint to print. They are all big cats!
